

SERVICE & MAINTENANCE AGREEMENT

Document type: guide | Product line: all | Last updated: 2026-01-12

1. MAINTENANCE CONTRACT TIERS

Basic tier (\$4.99/month): Annual filter check, phone support priority

Standard tier (\$9.99/month): Bi-annual filter check and replacement, phone and chat priority, 48-hour response SLA

Premium tier (\$19.99/month): Quarterly on-site maintenance visit, all filters included, 24-hour response SLA, priority scheduling

2. VISIT FREQUENCY AND RESPONSE-TIME SLAS

Basic: 1 visit per year, standard queue response times apply

Standard: 2 visits per year, 48-hour response SLA for support requests

Premium: 4 visits per year, 24-hour response SLA for support requests

3. PARTS COVERED VS BILLED

All maintenance tiers cover labour for scheduled visits. Filter cartridges are included in Standard and Premium tiers only; Basic tier customers are billed separately for filters at standard pricing.

4. CANCELLATION AND PRO-RATA REFUND

Contracts may be cancelled at any time. A pro-rata refund is issued for any full unused months remaining in the current billing period, calculated from the cancellation request date.

5. WARRANTY CLAIM PROCEDURE

When a warranty claim is approved per the Warranty Policy, the following steps apply:

Step 1: Support confirms the fault is covered and opens a claim reference number.

Step 2: A technician visit is scheduled within 5 business days, or a replacement unit is dispatched if the fault is confirmed remotely.

Step 3: For technician visits, the customer must be present or authorise a representative to be present.

Step 4: Once the repair or replacement is complete, the claim is closed and the customer receives a confirmation email.

This procedure applies regardless of maintenance contract tier — it is separate from paid maintenance visits.
